

Mammoth is upgrading backhaul capacity to Harris Park tower that is owned by ComNet (shared by Alex T.)

RIS has been down for a couple weeks. This is impacting Placer Valley residents who work from home. The information about the outage was on Placer Valley Next Door.

Question was raised about if there is a back up radio or other equipment for 'in case of an outage' with Parkco equipment? There is built in redundancy but not spare equipment. Capacity would be reduced temporarily.

Question about switch for Bailey Library—Christopher is working on it.

Christopher will be meeting to get DA office and Courthouse connected. SPT is also looking to lease fiber from Park County for this same spot.

Colorado Broadband Deployment Board: SPT project at Silver Heels got a grant for \$600,000, and Friendship Ranch got a grant for \$375,000 with NETEO DORA Grants..

2. Other items? (Vendors and public welcome to contribute)

CDOT will be connecting to the Bailey network—JKL helping with that effort

Next month agenda item: plan calendar for 2020

Meeting adjourned at 11am

~~NEXT MEETING: MONDAY, November 11, 2019—error~~

Next meeting is Monday, November 4, 2019, at 10am at 880Bogue St, Fairplay
