

## Foreign Language Message Translation

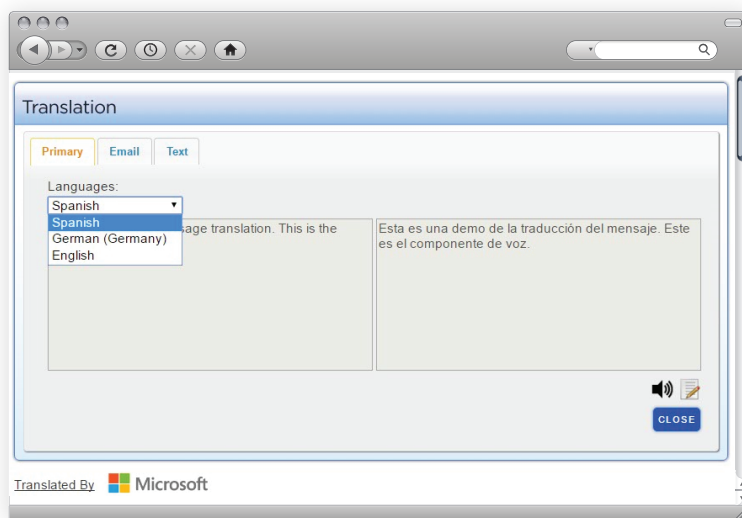

### Connect with your diverse audiences

---

Advanced message translation functionality supports voice and text fonts in more than 20 different languages, providing a broader reach for diverse communities.

#### Communicate with all audiences

With the Translation feature, your mass notification solution has the ability to communicate effectively to all audiences in an efficient and streamlined manner. Translation capabilities are powered by the industry-leading platform, Microsoft Translator, which allows native type in English to be translated directly through the user interface. With a simple process, organizations can maximize communications by selecting subsets of languages they wish to support.

MESSAGES ARE TRANSLATED DIRECTLY WITHIN THE USER INTERFACE
