

# US 285 Bailey Safety Improvements (Crow Hill)

## About the Project

The goal of the U.S. 285 Bailey Safety Improvements Project is to reduce the number of crashes occurring at what is known as the “Bailey Curve,” at the bottom of Crow Hill, in the town of Bailey, in Park County.

Improvements include:

- Concrete barrier in the center median
- Guardrail along the South Platte River
- Upgrading the turn lanes
- Enhanced roadway signage, including an overhead sign for southbound traffic
- Rumble strips for southbound Highway 285 prior to the Bailey curve.

## Project Schedule

Begin Construction June 2023

End Construction September 2023

## Project Location

Top of Crow Hill to Main St (CR64)

**COLORADO**

**Department of Transportation**
