Park County Public Works
2023 Project List Update

I am writing to inform you that the Public Works Project list for 2023 is currently under review for revision. This review is being conducted to identify immediate priorities and plan long-range maintenance goals for our county's infrastructure. These changes have been made possible due to recent changes in the staffing structure and funding availability, which have provided us with an opportunity to re-evaluate our approach to public works.

We recognize that the maintenance and improvement of our infrastructure are crucial to the well-being of our community, and we are committed to ensuring that our efforts are aligned with the needs of our residents. As such, we are reviewing the existing project list to identify areas that require immediate attention, as well as those that can be addressed over the long term.

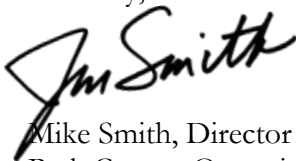

The revised project list will allow us to focus on critical maintenance programs while also employing additional contractors to tackle high-priority repair and replacement projects. These changes will be implemented early this season and will include resurfacing, safety improvements, and repairs to areas that have been damaged due to seasonal wear and tear.

We understand that the changes may cause some inconvenience, but we assure you that they are being made with the best interests of our community in mind. We will provide regular updates on the progress of these projects and welcome any feedback or suggestions that you may have.

We remain committed to our goal of ensuring that Park County's infrastructure remains safe, reliable, and well-maintained for years to come. Thank you for your patience and understanding as we work towards achieving this objective. A new project list will be posted once it has been established.

If you have any questions or concerns, please do not hesitate to contact us.

Sincerely,

Mike Smith, Director
Park County Operations
